A BALANCE OF DURABILITY, PERFORMANCE AND COMFORT.

Unique tread design delivers a smooth, comfortable ride with great overall tire life, while providing superior carcass strength and sidewall protection.

</tbody>
</table>
 Remarks
(1) Consult tire and wheel manufacturer for confirmation of the suitability of the
tire/rim combination particularly with regard to rim profile and wheel strength.
(2) The speeds quoted in the table are the maximum speeds of the unloaded vehicle.
   An increase in load capacity for lower speeds is not permitted. Loads apply
to cyclic service applications. Cyclic service means applications where tires
are not used continuously at the load indicated by its Load Index and Speed
Symbol. It does not refer to the length of time a vehicle is in use, but rather that
there is a variation in load and/or speed.
* Tube size is identical to tire size.
** Table shows standard valves. Other valves on request.
NHS – Not for Highway Service: Tires primarily designed for use outside of public
roads, but suitable for temporary/incidental use on public roads.
All tires come with tube and flap.
It is possible that certain items are not sold in your region.
Please contact your local sales contact to check tire availability in your region.

Authorized Distributor:
Camso is the best of Camoplast and Solideal. To keep moving forward while staying true to our history, we’re now the Road Free company.
